ICM Mentoring

This year UWSMS is proud to announce a new pilot academic initiative, **ICM Mentoring**. Third year student mentors will be assigned to a Year 1 or 2 ICM group and act as a mentor throughout the semester. Mentors will act to facilitate extra patients for students to visit to practice OSCE skills and engage in peer teaching in terms of ICM theory and history and examination skills.

As this initiative is running as a pilot, feedback is more than welcome throughout semester and a survey will be distributed at the end of the year, to determine whether the initiative is viable in the future.
